

PUBLIC HEALTH REPORTS.

Vol. XXVI.

MAY 26, 1911.

No. 21

UNITED STATES.

MUNICIPAL ORDINANCES, RULES, AND REGULATIONS PERTAINING TO PUBLIC HYGIENE.

[Adopted since Jan. 1, 1910.]

CONCORD, N. H.

POLIOMYELITIS—NOTIFICATION AND ISOLATION.

All cases of anterior poliomyelitis, or infantile paralysis, shall be reported to the board of health. Such cases shall be quarantined for a period of one month following the initial symptoms. Any child who shall be exposed to the disease during a period of one month following its initial symptoms shall be excluded from the schools for one month following such exposure. Such exposed children shall also be forbidden to attend public gatherings during a like period. [Regulation, board of health, adopted Sept. 24, 1910.]

COLUMBUS, OHIO.

PROTECTION OF FOODSTUFFS.

SECTION 1. Every person engaged in the business of selling articles of food, including berries of all kinds, for human consumption in the city, (1) when such foodstuffs are exposed for sale outside of any inclosed building, shall keep such foodstuffs free from dust, dirt, and flies by the use of glass cases or other equally efficient means; and (2) when such foodstuffs are exposed for sale in an inclosed building shall protect said foodstuffs from being handled by the public by means of wire guards or other sufficient contrivance, and from flies by means of glass cases, mosquito netting, or other like means; provided, however, that all fruits, except berries of all kinds, and vegetables in whole or in their native state are exempt from the provisions of this section.

SEC. 2. No person shall deposit or allow to remain within 2 feet of the surface of any sidewalk, street, or alley, or other public place in the city of Columbus any article of food offered or to be offered for sale for human consumption unless the same shall be contained in boxes or other receptacles so as to be protected from dogs and other animals and their excretions.

SEC. 3. Any article of food sold or offered for sale for human consumption shall be wrapped in clean manila wrapping paper or other clean paper or material.

SEC. 4. Every dealer in meats shall keep clean and in a sanitary condition every vehicle used for the transportation of meats within the city.

SEC. 5. All foodstuffs retained on preliminary examination pending decision or disposal shall be marked by placing upon each foodstuff a tag bearing the words "Columbus Board of Health—Retained." No person shall remove such tag, sell or offer for sale any foodstuffs so marked.

SEC. 6. No person shall sell or offer for sale any foodstuffs condemned by the meat inspector or any Government inspector.

SEC. 7. Any violation of any of the foregoing rules shall be punished by a fine not exceeding \$100, or by imprisonment for any time not exceeding 90 days, or both; but no person shall be imprisoned for any violation or failure to obey any of the foregoing rules for the first offense, unless the affidavit upon which the prosecution is instituted contains the allegation that the offense is a second or repeated offense.

SEC. 8. These rules shall take effect and be in force from and after the earliest period allowed by law. [Regulation, board of health, adopted Apr. 5, 1911.]

TOLEDO, OHIO.

PROTECTION OF FOODSTUFFS—FRUITS.

SECTION 1. That it shall be unlawful for any person to assort berries or other fruits of any kind in the streets or on the market place of the city of Toledo, State of Ohio, or to refill or offer for sale berries contained in wooden or paper boxes or baskets which have one or more times been used as receptacles for any kind of berries.

SEC. 2. Any person violating any of the provisions of this ordinance shall be deemed to be guilty of a misdemeanor, and on conviction thereof shall be fined not more than \$50, or imprisoned not more than 10 days in the Toledo workhouse, or both.

SEC. 3. This ordinance shall take effect and be in force from and after the earliest period allowed by law. [Ordinance adopted May 16, 1910.]

TOLEDO, OHIO.

PRIVIES OR WATER-CLOSETS—RESIDENCES TO BE SUPPLIED WITH.

SECTION 1. That it shall be unlawful for the owner or agent of any real estate within the limits of the city of Toledo upon which a building is situated to either let or lease the same for residence purposes or to permit the same to be occupied as a residence unless the same be provided with a privy or water-closet either in the building or upon the lot on which said building is situated, the same to be constructed and maintained in accordance with the laws of the State of Ohio and the ordinances of the city of Toledo which are now in force or which may hereafter be adopted.

SEC. 2. Any person found guilty of violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and on conviction thereof shall be fined not less than five dollars nor more than one hundred dollars.

SEC. 3. This ordinance shall take effect and be in force from and after the earliest period allowed by law. [Ordinance adopted Jan. 3, 1911.]

WATERBURY, CONN.

PROTECTION OF FOODSTUFFS—FRUITS AND VEGETABLES.

SECTION 1. No dealer shall expose outside his place of business berries, cherries, grapes, or cut watermelon for sale unless the same shall be properly protected from dust, dirt, and all carriers of infection.

SEC. 2. All stands used for displaying fruit or vegetables must not be less than 2 feet 6 inches high above the sidewalk.

SEC. 3. Any person violating the provisions of this ordinance shall, upon conviction thereof, be punished by a fine of not less than \$10 and not more than \$100. [By-law, commissioners of public health, adopted May 2, 1910.]

NEW YORK, N. Y.

MILK—RULES AND REGULATIONS RELATING TO PASTEURIZATION.

1. Only such milk or cream shall be regarded as pasteurized as has been subjected to a process in which the temperature and exposure conform to one of the following: No less than 158° F. for at least 3 minutes; no less than 155° F. for at least 5 minutes; no less than 152° F. for at least 10 minutes; no less than 148° F. for at least 15 minutes; no less than 145° F. for at least 18 minutes; no less than 140° F. for at least 20 minutes.

2. On and after March 1, 1910, milk or cream which has been heated in any degree will not be permitted to be sold in New York City unless the heating conforms with the requirements of the department of health for the pasteurization of milk or cream.

3. Applications for permits to pasteurize milk or cream will not be received until all forms of apparatus connected with the preparation of milk or cream for sale have been tested and the processes approved by the board of health. [Adopted by the board of health of the department of health Dec. 8, 1909, and amended Nov. 29, 1910.]

MILK—RULES AND REGULATIONS FOR ITS CARE AND STORAGE.

1. No permits for the sale of milk, condensed milk, and cream shall be granted until after an application has been made in writing on blanks provided for that purpose.

2. No permit for the sale of milk, condensed milk, and cream shall be granted until after the premises where it is proposed to care for and handle such milk, condensed milk, and cream have been rendered sanitary.

3. All wagons used in the transportation of milk, condensed milk, or cream shall have a permit, which shall expire on the last day of December of the year in which the permit is granted. Permits on all wagons engaged in the sale or transportation of milk, condensed milk, or cream must be conspicuously displayed so that they may be readily seen from the street.

4. Permits for the sale of milk in stores shall be so conspicuously placed that they may be readily seen at all times.

5. Milk, condensed milk, and cream, must not be transferred from cans to bottles or other vessels on streets, on ferries, or at railroad depots, except when transferred to the vessel of a purchaser at the time of delivery.

6. Milk, condensed milk, or cream shall not be kept for sale nor stored in any stable or room used for sleeping or domestic purposes, or in any room having any communication with such stable or rooms, or with water-closet apartments, except when such water-closet apartments are inclosed by a vestibule and are properly ventilated to the external air.

7. Milk, condensed milk, or cream must not be sold or stored in any room which is dark, poorly ventilated, or dirty, or in which rubbish or useless material is allowed to accumulate, or where there are offensive odors.

8. The vessels which contain the milk, condensed milk, or cream while on sale must be so protected by suitable covers and must be so placed in the store that the milk, condensed milk, or cream will not become contaminated by street dust and dirt.

9. Cans containing milk, condensed milk, or cream for sale shall not be allowed to stand on the sidewalk or outside the store door.

10. Cans in which milk, condensed milk, or cream is kept for sale shall be kept either in a milk tub, properly cooled, or a clean ice box or refrigerator in which only these or similar articles of food are stored. (See sec. 53, par. 9, of the sanitary code.)

11. All cans, bottles, or other receptacles in which milk, condensed milk, or cream is handled, transported, or sold must be thoroughly cleaned and sterilized before filling, but such cleaning shall not be done nor shall such receptacles be filled in any place which does not conform with the provisions of paragraph 6 of these rules and regulations.

12. All dippers, measures, or other utensils used in handling milk, condensed milk, or cream must be kept clean and sanitary while in use and shall be thoroughly washed and sterilized directly after each day's use.

13. The ice box or ice tub in which milk, condensed milk, or cream is kept must be thoroughly cleaned by scrubbing at least twice a week.

14. The overflow pipe from the ice box in which the milk, condensed milk, or cream is kept must not be connected directly with the drainpipe or sewer, but must discharge into a properly trapped, sewer-connected, water-supplied open sink. (See sec. 34 of the sanitary code.)

15. Any person having a contagious disease or caring for or coming in contact with any person having a contagious disease shall not handle milk.

16. All stores which have permits for the sale of milk, condensed milk, or cream will be frequently inspected to determine their sanitary condition and will be scored by a system adopted by the department of health.

17. The revocation of permits will ensue if the score is found repeatedly below the required standard.

18. The revocation of permits will ensue for the violation of any of these rules and regulations.

19. The revocation of permits will ensue upon the repeated conviction of the holders thereof of violations of any section of the sanitary code relating to the adulteration of milk, condensed milk, or cream. [Adopted by the board of health of the department of health June 26, 1907, and amended Nov. 29, 1910.]

TAUNTON, MASS.

SWILL, REFUSE, AND OFFAL COLLECTION.

REGULATION 2—SECTION 1. No person shall collect, remove, or carry in or through any of the streets, lanes, avenues, places, or alleys within the city of Taunton swill, offal, butcher's waste, soap grease, rough tallow, or slaughterhouse refuse unless duly licensed so to do by the board of health.

SEC. 2. All such refuse collected and carried through the streets, as provided in section 1, shall be put and carried in a close-covered vehicle, box, or other water-tight container from which no odors can escape and which shall at all times, when not necessarily open for the purpose of depositing the refuse therein, be kept securely covered with a metal or wooden cover. If any of the contents thereof shall be spilled or fall upon any street, walk, or premises, it shall be the duty of the collector to replace the same immediately and remove all traces thereof from such street, walk, or premises.

SEC. 3. All persons licensed by the board to collect and transport swill, offal, butcher's waste, soap grease, rough tallow, or slaughterhouse refuse shall keep all carts, equipments, and implements used therefor clean and free from all offensive odors when not in immediate use and shall not allow the same to become offensive or obnoxious to the public or to the owners or occupants of premises adjoining those where the same are kept or stored. [Regulation board of health adopted Mar. 7, 1910.]

PLAGUE-PREVENTION WORK.

DISTRIBUTION OF POISON.

In connection with the making of a squirrel-free zone around the cities of California on San Francisco Bay 1,878 acres of land in Alameda County were covered with poison during the week ended May 6, 1911.

Record of Plague Infection.

Places.	Date of last case of human plague.	Date of last case of rat plague.	Date of last case of squirrel plague.	Total number of rodents found infected since May, 1907.
Cities:				
San Francisco.....	Jan. 30, 1908....	Oct. 23, 1908....	None.....	398 rats.

SMALLPOX IN THE UNITED STATES.

In the following tables the States indicated by an asterisk are those from which reports of smallpox are received only from certain city and, in some cases, county boards of health. In these States, therefore, the recorded cases and deaths should not be taken as showing the general prevalence of the disease. In the States not marked by an asterisk the reports are received monthly from the State boards of health and include all cases reported throughout the State.

STATISTICAL REPORTS OF MORBIDITY AND MORTALITY, STATES AND CITIES OF THE UNITED STATES (untabulated).

CONNECTICUT.—Month of April, 1911. Population 1,100,130. Total number of deaths from all causes 1,656, including diphtheria 22, measles 17, scarlet fever 13, tuberculosis, pulmonary, 148, typhoid fever 3. Cases reported: Diphtheria 112 in 38 towns, measles 709 in 75 towns, scarlet fever 303 in 54 towns, tuberculosis, pulmonary, 130 in 43 towns, typhoid fever 25 in 15 towns.

FLORIDA.—Week ended May 6, 1911. Reports from the State board of health show diphtheria present in 2 localities with 2 cases, small-pox in 10 counties with 63 cases and 1 death, malaria in 1 locality (Tampa) with 29 cases, tuberculosis in 8 localities with 14 cases, typhoid fever in 6 localities with 11 cases.

ILLINOIS—Alton.—Month of April, 1910. Population 20,446. Total number of deaths from all causes 21, including tuberculosis 1. Cases reported: Diphtheria 1.

Quincy.—Month of April, 1911. Population 32,642. Total number of deaths from all causes not reported. The deaths include diphtheria 1, measles 1, tuberculosis 8, typhoid fever 1. Cases reported: Diphtheria 8, measles 11, smallpox 3.

INDIANA.—Month of March, 1911. Population 2,700,876. Total number of deaths from all causes 3,238, including diphtheria 21, measles 63, scarlet fever 31, smallpox 2, tuberculosis 410, typhoid fever 36. Cases reported: Diphtheria 209 in 34 counties, scarlet fever 641 in 57 counties, smallpox 117 in 21 counties, typhoid fever 91 in 26 counties.

MICHIGAN.—Month of March, 1911. Population, 2,810,173. Total number of deaths from all causes 3,784, including diphtheria 29, measles 30, scarlet fever 20, tuberculosis 314, typhoid fever 48.

For morbidity, month of March, 1911, see Public Health Reports, May 5, 1911, page 659.

MINNESOTA.—Month of January, 1911. Population, 2,075,708. Total number of deaths from all causes 2,181, including diphtheria 30, measles 4, scarlet fever 29, tuberculosis 225, typhoid fever 17.

NORTH CAROLINA.—Month of February, 1911. Reports from the State board of health show diphtheria present in 34 counties, measles in 40 counties, scarlet fever in 24 counties, smallpox in 35 counties, typhoid fever in 25 counties, pernicious malarial fever in 2 counties, hemorrhagic malarial fever in 1 county.

OKLAHOMA.—Month of March, 1911. Population, 1,657,155. Total number of deaths from all causes 826, including diphtheria 20, scarlet fever 13, tuberculosis 70, typhoid fever 15. Cases reported: Diphtheria 65, scarlet fever 380, smallpox 180, tuberculosis 100, typhoid fever 72.

SOUTH CAROLINA—*Charleston.*—Month of April, 1911. Population, 58,833. Total number of deaths from all causes 126, including tuberculosis 11, typhoid fever 1. Cases reported: Diphtheria 2, scarlet fever 5, smallpox 5.

TEXAS—*Fort Worth.*—Month of March, 1911. Population, 73,312. Total number of deaths from all causes 102, including diphtheria 1, measles 1, tuberculosis 10, typhoid fever 2. Cases reported: Diphtheria 1, measles 8, scarlet fever 6, smallpox 1, tuberculosis 10, typhoid fever 4.

FOREIGN AND INSULAR.

BRAZIL.

PARA—Plague and Yellow Fever.

The American consul reports May 20 the occurrence of 9 cases of plague with 5 deaths and 1 death from yellow fever.

BRITISH EAST AFRICA.

Plague at Kismayu.

The American consul at Zanzibar, Zanzibar, reported, May 19, the presence of plague at Kismayu, British East Africa.

CHINA.

AMOY—Plague and Smallpox.

Acting Asst. Surg. Bonthius reports April 10:

During the two weeks ended April 8 there were reported in Amoy 12 deaths from plague and 5 from smallpox.

On the east coast of Amoy Island 3 deaths from pneumonic plague were reported April 10.

GERMANY.

Smallpox in District of Frankfort on Oder.

Consul General Thackara at Berlin reports May 2:

The following statement relative to the recent outbreak of smallpox in the district of Frankfort on Oder was made by the district physician and transmitted by the American consul at Sorau:

An outbreak of smallpox was reported April 26. Two deaths from the disease occurred in the hospital at Seelow and 10 additional cases are under treatment in isolated wards of the hospital. All persons living at Marxdorf and in the district of Lebus have been vaccinated.

HAWAII.

Record of Plague Infection.

Last case of human plague at Honolulu occurred July 12, 1910.

The last plague-infected rat was found at Aiea, 9 miles from Honolulu, April 12, 1910.

At Hilo the last case of human plague occurred March 23, 1910. A fatal case occurred at Honokaa, 60 miles from Hilo, December 17, 1910, 2 fatal cases were reported January 31, 1911, and 1 fatal case was reported April 19.

The last plague-infected rat was found at Honokaa, February 2, 1911.

Chief Quarantine Officer Ramus reports May 1:

HONOLULU.

Week ended April 29, 1911.

Total rats and mongooses taken.....	905
Rats trapped.....	875
Mongooses trapped.....	30
Examined bacteriologically.....	752
Classification of rats trapped:	
<i>Mus alexandrinus</i>	121
<i>Mus musculus</i>	295
<i>Mus norvegicus</i>	45
<i>Mus rattus</i>	414
Average number of traps set daily.....	1,720

INDIA.

CALCUTTA—Cholera, Plague, and Smallpox.

Acting Assistant Surgeon Allan reports April 27:

During the week ended April 1 there were reported at Calcutta 34 deaths from cholera, 84 from plague, and 5 from smallpox; in all Bengal, 6,203 cases of plague with 5,093 deaths; in all India, 47,029 cases of plague with 41,070 deaths.

ITALY.

NAPLES—Smallpox.

Passed Assistant Surgeon King reports, May 2:

During the week ended April 29 there were reported at the health office of the city of Naples 50 cases of smallpox with 9 deaths.

JAPAN.

KOBE—Smallpox.

Acting Assistant Surgeon Moore reports, April 12:

During the week ended April 8 there were reported 2 cases of smallpox with 1 death.

JAVA.

Plague in District of Malang.

Consul Rairden reports, April 4:

Plague is present in the district of Malang, East Java. The disease was brought by pilgrims from Jiddah and has been present for about two months, although not officially recognized as plague until March 31. During the month of March about 100 cases with 60 deaths were reported. Every precaution is being taken by the authorities to prevent spread of the disease.

On April 8 Consul Rairden reported the increase of plague in the district of Malang.

MEXICO.

Smallpox and Typhus Fever at Juarez.

Acting Assistant Surgeon Tappan, at El Paso, Tex., reports, May 14:

Smallpox is present at Juarez, Mexico, with about 20 cases, and typhus fever with about 14 cases. Quarantine is enforced on the frontier.

NETHERLANDS.

AMSTERDAM—Vital Statistics, 1880-1909—Sanitary Conditions.

The following information was forwarded April 26 by Consul Mahin: Interesting statistics regarding Amsterdam have been prepared for an international hygienic exposition to be held at Dresden, Germany,

during the coming summer. The statistics make comparisons with Berlin, Paris, London, and other great cities, and give the following regarding births and deaths per 1,000 of population:

	Birth rate.		Death rate.		Excess of birth rate.	
	1880	1909	1880	1909	1880	1909
Amsterdam.....	36.3	23.9	27.0	13.1	9.3	10.8
Berlin.....	39.9	21.6	29.7	15.1	10.2	6.5
Paris.....	25.6	17.6	25.4	17.4	.2	.2
London.....	35.3	24.2	21.7	14.0	13.6	10.2
Munich.....	39.6	25.1	34.7	17.6	4.9	7.5
Barcelona.....	30.7	24.2	29.6	26.7	1.1	-2.5

These figures speak well for Amsterdam, but have a general interest as showing the reduction in the death rates of all those cities. The figures show a greater decrease in the ratio of births than of deaths, except in Amsterdam and Munich, where there was an actual net increase of births over deaths.

In 1910 the Amsterdam death rate was still lower than in 1909, being 12.17. The birth rate in 1910 was 23.64.

The statistics give the ratio of deaths to births in this city from 1700 to 1850, by 20-year periods. In 1700 there were 107 deaths to 100 births; the proportion fluctuated but increased on the whole till in 1800 there were 179 deaths to 100 births. This great excess of deaths was no doubt chiefly due to wars. In 1820 the deaths were 103 to 100 births; in 1840, 83; and in 1850, 80. In 1910 the deaths were not quite 51 to each 100 births in this city. The population of the city in 1800 was about 200,000; in 1850, 225,000; in 1910, 574,000.

In 1870 the expenses of the Amsterdam hospitals were \$72,820; in 1910, \$251,041. In 1870 the municipal sanitary service cost \$1,986; in 1910, \$22,103. These increases were greatly in excess of the population growth.

PERU.

Status of Plague.

Acting Assistant Surgeon Castro-Gutierrez at Callao reports April 24:

The following statement of plague was received from the director of public health:

March 19-April 1, 1911.

Places.	Cases remaining Mar. 18.	New cases.	Recovered.	Died.	Remaining Apr. 1.
Lima.....	10	3	6	3	4
Huachichilco.....	1		1		
Callao.....		1		1	
Trujillo.....	51	18	20	2	47
Pacasmayo.....	5	1	4		1
Islay.....	4	5	2	5	2
Chiclayo.....	5	8	(?)	2	9
Santa.....	3				3
Plura.....	6		2		4

¹ Unknown.

Consular Agent Caldicott at Salaverry reports the occurrence of 3 cases of plague from March 18 to April 1.

Bills of health from ports south of Callao show as follows: Mollendo, Peru, April 18, 8 cases of plague with 3 deaths, during previous two weeks; Arica, Chile, April 17, present; Valparaiso, Chile, March 30, 60 cases of smallpox in previous two weeks.

PORTUGUESE GUINEA.

Yellow Fever.

Information received May 24 from Sierra Leone shows yellow fever present in Portuguese Guinea.

RUSSIA.

Cholera.

The American Ambassador at St. Petersburg reported May 16 to the Department of State that during the period from April 28 to May 3 there occurred in southern Russia 2 cases of cholera.

CHOLERA, YELLOW FEVER, PLAGUE, AND SMALLPOX.

Reports Received During Week Ended May 26, 1911.

These tables include cases and deaths recorded in reports received by the Surgeon General, Public Health and Marine-Hospital Service, from American consuls, through the Department of State, and from other sources.]
